

## Research & Innovation 2018

### New Biology, New Targets

Homerton College, Cambridge  
17th -18th April 2018

#### Novel Targets in Neuroscience: Wednesday 18th April

Advances in basic science are transforming our understanding of neuropsychiatric disorders, and delivering novel targets with the potential to enable the development of rational treatments that are both safe and effective. In this session leading scientists from the cutting edge of neuroscience will describe their latest research and explain how new technologies and approaches are permitting them to actively translate novel targets. The session will focus on both clinical observations and the application of strategies used within other disease areas to discover and prosecute novel drug targets.

#### Session Chairs

**Carol Routledge** (ARUK) & **Stephen Sawcer** (Cambridge Neuroscience)

#### Plenary Keynote Speaker

**Iain Chessell**  
(VP Neuroscience IMED  
MedImmune, AstraZeneca)

#### Confirmed Speakers

**Alasdair Coles** (Cambridge University)  
**Lee Dawson** (Astex)  
**Mark Halliday** (University of Cambridge)  
**George Tofaris** (Nuffield Department of Clinical Neurosciences)  
**Caleb Webber** (Henry Wellcome Centre for Gene Function)  
**Seyed-Mahdi Khaligh-Razavi** (Cognetivity Ltd)  
**Sherif El-Khamisy** (University of Sheffield)

#### Call for Posters

For an opportunity to present your research in one of our poster spotlight sessions, submit your abstract by **23rd March 2018**.

The deadline for general poster abstract submission is **13th April 2018**.

#### Sponsorship & Exhibition

For further information on sponsorship & exhibition opportunities, including multi-show discounts, please e-mail ELRIG General Manager: Sanj Kumar  
**sanj.kumar@elrig.org**

Follow us on Twitter **@ELRIG\_UK** for all the latest information on ELRIG events and news.
